## Q26 - Any other comments?

Any other comments?

Thank you for making immersion week available. I enjoyed it and found it extremely helpful.

I only attended for one day. I was full time last year and dropped to part time

There were a lot of technical issues i.e. connecting to the wifi network, and evaluate problems, etc. that interfered with me progressing and soaking up the processes of learning how to approach a potential preceptor and other important things.

Thank you for the granting us this opportunity to meet our peers and faculty face to face as well as clarify any uncertainty.

Disappointed in the inability to retrieve books for classes.

Immersion week was a lot of information. It would have been awesome if topics were presented in a more organized manner. Handouts with checklists or bullets with the order in which certain tasks should be done ( such as the process of finding a preceptor) would have been helpful. It would be great to have received information about mandatory dates to be on campus in person much earlier. My work creates the schedule at least 6 weeks in advance- I think the dates and location need to be determined and published two months in advance. I loved getting to know my classmates and get to know the teachers. It definitely made me feel much more comfortable about the program.

I heard all and appreciate all; however, i need time to study and organized how to put it all together. WOW!!!

I'm leaving Immersion Week with a TON of information. Still a bit unclear about how to locate everything. I am so glad to be able to do this week in person! Thank you!

n/a

This was a great week. Thank you!
