

Curriculum Committee Report to NFO

April 3/2020

At our last meeting on 2/14 @ 1pm - We continued to discuss the course reports that have been reviewed and we are now finally done reviewing for the 2018-2019 academic year.

Adult/Gero I, II, and III- course descriptions and verbiage was being reviewed by the committee because what is on the current syllabus and course descriptions are not what was approved. We have updated the verbiage and voted as a committee to present the new course descriptions at the 4/2 NFO meeting.

BSN Curriculum Policy has been reviewed and updated for 2020 and will go to the policy committee per Dr. Greene.

Curriculum committee will be working with the simulation committee on approving simulations for fall 2020.
