

Site Evaluation

Evaluator:		Evaluation Type: Student Evaluation of Clinical Site
Course:	NRSG 7000: Primary Care of Adults I	Site:
Period:	Spring 2019	Dates of Activity: 01/14/2019 To 05/10/2019
Evaluator Participation Dates: To		Completion Date: 04/25/2019

Family Nurse Practitioner Students: your commitment of time and expertise this semester is greatly appreciated. We value your feedback so that we may continue to improve your learning experience and that of our future students. The following is a brief feedback survey that will give you the opportunity to help us assess clinical sites. Please select only the best response for each question and elaborate with examples whenever possible. Thank you!
Please contact the Nursing 7050 Course Coordinators Sallie.coke@gcsu.edu or 478-752-1074 Macon Campus for any questions or concerns we can assist you with.

(Question 1 of 4 - Mandatory)

	Needs Improvement	Met your expectations	Exceeded your expectations	N/A: No opportunity, Not observed, or Not applicable
Site and staff orient student to physical setting, OSHA guidelines, HIPAA guidelines, emergency procedures and safety practices specific to site.	1.0	>> X <<	3.0	0
Clinical site provides for effective diagnostic assessment tools for optimal learning experience.	1.0	2.0	>> X <<	0
Clinical site provides appropriate electronic medical record technology for student use.	1.0	>> X <<	3.0	0
Clinical site provides a culture of learning for the student free of harassment, bullying and other negative experiences.	1.0	2.0	>> X <<	0
Clinical site is one that you would return to or recommend for future clinical opportunities.	1.0	2.0	>> X <<	0

Examples from Site evaluation (Question 2 of 4)

this practice performs most of the patient's labs in-house including x-rays, blood chemistries, urinalyses, and histologies. This allowed me to see first-hand what it takes to receive results from an ordered lab. I always felt comfortable going in to clinical. The office staff always treated me with respect and as an equal in the healthcare world.

Please list any positive attributes for your clinical site you would like us to know. (Question 3 of 4)

The staff was amazing. They were all so willing to help no matter what I requested. They never once acted like it was a burden to have students around.

Please list any areas for improvement in regards to your clinical site. (Question 4 of 4)

We always remained extremely busy. Sometimes this interfered with the teaching environment because we had to jump from one patient to another.

Thank you for your input. We value you and your commitment to nursing and advanced practice.
